VITA

Stacie Sachiko Sakai was born in Honolulu, Hawaii on December 30, 1979. She graduated from the University of Illinois, Urbana-Champaign in 2001 with a degree in Bioengineering. Following the completion of her undergraduate degree, Ms. Sakai continued her studies at the University of Illinois, Urbana-Champaign in the department of Nuclear, Plasma, and Radiological Engineering.

Following the completion of the Master of Science Degree in Nuclear Engineering in August 2003, Ms. Sakai will return to Hawaii, with the aim of working with the Federal Government.
